INTRODUCTION

Turtle Win Doors is well known company in the field of uPVC Doors and Windows, Decorative Mesh, and Glass Work. It was incorporated in the year 2021. We have attained expertise in manufacturing, supplying and installation uPVC windows such as uPVC Fixed Window, uPVC Top Hung Window, Company's enviable range of products is further customizable to the client's specific designs. They are fabricated on computerized plant to exact specifications. The window is available in ready to fit form, making the installation of these windows quick and totally hassle free.

is the registered brand of Turtal Win Door & WINDOWS SYSTEMS, a company with 5 years lineage in the Indian infrastructure industry. Our claim to fame is the manufacturing of premium quality Duron uPVC window and door frameworks and machineries along with top notch German hardware. The team is headed by technocrats specializing in plastic engineering, who are supported by experienced manpower trained in the manufacturing of uPVC windows and entry ways. For sales, service and project management a dedicated administrative support system is in place which ensures complete transparency of business transactions, timely delivery and job site support.

The Villa Window

A rare combination of style and substance, the Villa Window when launched was the first to introduce a twin sash, bug mesh and a grill built in the system. This ensures enhanced security and ventilation while not allowing insects and mosquitoes inside.

Available in uPVC

The Tilt and Turn Window

Welcome more sunlight and ventilation inside your home with these Tilt & Turn windows. Featuring a sash that can tilt open at an angle from the top with hinges at the bottom or can swing inwards with hinges on the side. Advanced engineering facilitates both these operations with the simple turn of a single handle.

Available in uPVC and Aluminium

Sliding Windows

Sliding windows can be very large in size enabling uninterrupted views and suitable ventilation. Customization is possible: glazing & glass options, robust hardware, mesh, choice of colours and sizes.

Available in uPVC and Aluminium

The Casement Window

Featuring a sash that is hinged from the side on an outer frame that can open inwards and outwards. This ensures maximum ventilation in the room. Due to its double/triple glazing options, they enable better thermal and sound insulation as well. The windows come with multiple point locking systems and friction stay that ensures the window remains open in a fixed position even in the face of a stiff breeze.

Low Threshold Slider

Comes with all the advantages of the slider doors with a lower threshold thus seamlessly connecting the home's indoor to outdoor. It also offers easy accessibility of wheelchair which reduces the chances of slipping and tripping.

Available in uPVC and Aluminium.

Casement Door

Counted among the most popular door designs, it gives a classic look in even the most modern of settings. Designed to swing inwards or outwards with the twist of a handle, Casement Doors offer clear views of the other side. Above all, it's their picturesque profile that makes Casement Doors the preferred choice for many. These Doors are equipped with hook locks and 3D hinges which ensure smooth operation with safety.

Available in uPVC and Aluminium.

Designer Door

The FENFURA ENTERPRISERS Designer door can be used at entrance, rooms, bathrooms, kitchen or anywhere else. The core is filled with a metal sheet and foam to enhance sound & thermal insulation and weather-endurance.

Available in uPVC and Aluminium.

COLOUR PALETTE

Aluminium System Windows & Doors

Aluminium Windows have become an integral part of modern architecture complementing the modern architecture style very well. The fascinating attributes include the excellent fitness, even under extreme loads, and assure perfect functionality at all times. These windows require only low maintenance over their long service lives. Elements are non-flammable, colourful and 100% recyclable. These windows are extremely capable of bearing high load capacity. The elements can be produced in extraordinary sizes and with various glass options. Their weather resistance lends them long term, durability and they are maintenance free to the greatest possible extent. They fulfill virtually all architectural challenges affecting, shape, color and design. Windows are available in single sash variants, multi-sash designs and a number of combinations with frames. Windows are available as side hung, top hung, and French style elements. The corner connectors are mitred for the perfect look and functionality. Solid metal corner are fixed to aluminium profiles to form an indispensable bond for strong and stable closed frames. Multi point locking to get higher security.

Aluminium has been used in construction and has become a preferred choice for developers as well as home buyers. Keeping all these factors in mind, it won't be wrong to say that aluminium is a stylish, elegant, and superior looking material that offers a number of advantages. Along with the variety of styles and designs, all Turtle Interiors doors and aluminium windows can be custom-made to any specification and configuration.

Turtle Interior Ambience

THE WINDOWS WITH SIMPLE AND CLASSY DESIGN

UPVC Casement Windows are hinged on the left or right side and swing open to the outside or inside. Not only do they provide the house with most ventilation, but also can be positioned to catch a passing breeze and direct it into the house. These are highly regarded and in all probability the most wanted style in the window market.

The reason for the popularity of the product is, they are engaging, stylish and sensible product suited to a wide range of various properties. The casement window features a single-lever latch design that permits for single-hand operation. This makes them terribly simple to open and close. This is often why UPVC Casement Windows are most ordinarily installed in exhausting places to achieve cooling effect around the home.
